Requestor's Position Summary: "CPT code 63661 is reimbursed @50% of \$2,687.10 = \$1,343.55. Total reimbursement should have been \$1,343.55."

Amount in Dispute: \$1,343.55

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "Our investigation has found that reimbursement was issued in accordance with the Texas Fee Schedule and Texas Guidelines, Rules 134.403."

Response Submitted by: The Hartford

SUMMARY OF FINDINGS

Dates of Service	Disputed Services	Amount In Dispute	Amount Due
March 24, 2015	63661	\$1,343.55	\$0.00

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403 sets out the acute care hospital fee guideline for outpatient services.
3. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - 97 – Payment adjusted because the benefit for this service is included in the payment/allowance for another service/procedure that has already been adjudicated
 - 243 – The charge for this procedure was not paid since the value of this procedure is included/bundled within the value of another procedure performed

- 193 – Original payment decision is being maintained

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to additional reimbursement?

Findings

1. This dispute relates to outpatient hospital facility services with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables was not requested.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code 63688 has a status indicator of Q2, which denotes T-packaged codes; payment for these services is packaged into the payment for any other procedures with status indicator T that are billed for the same date of service. This code may be separately payable only if no other such procedures are billed for the same date. This procedure is paid at 100%. These services are classified under APC 0688, which, per OPPS Addendum A, has a payment rate of \$2,128.81. This amount multiplied by 60% yields an unadjusted labor-related amount of \$1,277.29. This amount multiplied by the annual wage index for this facility of 0.9512 yields an adjusted labor-related amount of \$1,214.96. The non-labor related portion is 40% of the APC rate or \$851.52. The sum of the labor and non-labor related amounts is \$2,066.48. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,775. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$2,066.48. This amount multiplied by 200% yields a MAR of \$4,132.96.
 - Procedure code 63661 has a status indicator of Q2, which denotes T-packaged codes; payment for these services is packaged into the payment for any other procedures with status indicator T that are billed for the same date of service. This code may be separately payable only if no other such procedures are billed for the same date.
3. The total allowable reimbursement for the services in dispute is \$4,132.96. This amount less the amount previously paid by the insurance carrier of \$4,132.96 leaves an amount due to the requestor of \$0.00. No additional reimbursement can be recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
